Dear Customer,

The Water Works and Sewer Board of the City of Eufaula is in the third year of our 10- year potable water tank maintenance program. Water tank 8 at 578 Hwy. 30 will be washed out and inspected. The project is scheduled to begin February 20, 2017 and end February 24, 2017. During the maintenance of the tank, you may experience fluctuating pressures. We will have a pressure relief on a hydrant near Mustang Lane and near 444 Cottonhill Road. You may see water coming from the hydrants but this is normal. Please bear with us while we strive to continue to supply our customers with the best potable water.

Please contact customer service should you have any questions or need assistance at 334-687-1225. We apologize for any temporary inconvenience this may create. The Contractor for this project is Robinson and Son Construction, Haleyville, Alabama.

Sincerely,

Michael Taylor
Supervisor Water and Wastewater
